The BS program provides students with strong conceptual and methodological foundations, training in applied methods, and a wide range of elective course options. All our programs are offered both in person and online. The sociology program at SHSU emphasizes training in applied methods. The applied core provides students with skills highlighted by the National Association of Colleges and Employers as important to occupational success. The Sociology Department also offers internships in applied sociology that give students the opportunity to participate in a pre-professional experience applying sociological knowledge and methods in a community-based, government, or for-profit organizational setting.
